UX/Visual Designer with 20+ years of experience across startup, agency, and enterprise environments. I've partnered with a wide array of teams and clients to ship refined experiences that are intuitive, scalable, and built for launch — with a growing curiousity for AI-optimized design workflows.

EDUCATION

Bachelor of Fine Arts
Monmouth University, West Long Branch, NJ, 2004 (Cum Laude)

CERTIFICATIONS

- UX Design Master Course
- Principles & Practices for Great UI Design
- Smart Interface Design Patterns

AFFILIATIONS

Sigma Pi Fraternity
Member & Educational Foundation Donor

EXPERIENCE

Senior UX Designer (contractor to full time) — Comcast Business | Philadelphia, PA: *Jul. 2021 – Present*
UX and UI design for Comcast Business customer education and acquisition experiences. In this role, I partner with multi-disciplinary teams and stakeholders to deliver features and merchandising campaigns in an agile and high speed environment.

Key highlights:

- Lead UI design for Comcast Business Mobile learn content.
- 2026 AI Champion: using AI tools to rapid prototype designs and automate workflows, and drive adoption.
- 2026 Circle of Success nominee - for CX work on the Comcast Business Mobile Digital Experience Team.

Senior Art Director/UI Designer — MRM | Princeton, NJ: *Sep. 2010 – May 2021*
Combined visual design, motion graphics, and UI systems work for multi-million dollar brands. In my later role I specifically shifted to specializing in atomic design principles and modular component libraries.

Key highlights and clients:

- IHOP, U.S. Army, Educational Testing Service, Bristol-Myers Squibb, Sunovion Pharmaceuticals, Verizon
- Selected to represent MRM at the Facebook Hackathon event, in which agency teams came together to "hack" the Canvas ad format, which later led to launching an award-winning ad unit for IHOP.

Art Director — Primal Stare Studios, Inc. | Tinton Falls, NJ: *Nov. 2007 – Apr. 2010*
Partnered with Lead Programmers to create a seamless process between front-end design and back-end development for several innovative websites and digital campaigns as part of a small, award-winning interactive development team.

Key highlights and clients:

- Texas A&M, U.S. Air Force, AARP, Chili's, Kohler
- Created visual design and motion graphics for an award-winning website for the U.S. Air Force/NASCAR "Switching Seats" recruitment campaign
